WHAT WE DO

Take a moment and think about what tasks are time consuming and worrisome. Such as grocery shopping, taking the pet to the groomers, scheduling and overseeing the plumber for a leaky faucet or home watch services if planning on being away for an extended period. Not everyone needs a live-in house manager but still could use some reliable help from time to time. That is where we come in.

WHO WE ARE

YPEs is a small local company offering personalized concierge services tailored to the clients needs. We all down and discuss what is needed from us to free up your time and put your mind at ease.

MISSION STATEMENT

To unify and build upon the individual strengths of people who share a common interest in protecting wildlife and restoring natural resources.

It is our intention to work towards the restoration of natural habitats for the generations to follow and enjoy the economic, social recreation, ecological and aesthetic benefits of these areas through cooperative efforts with state and federal agencies.

Through acquisitions of land from willing landowners, conservation easements, gifts, and donations, it is our hope to educate and train environmental protection and enhancement, habitat restoration, fish and wildlife preservation, water quality protection and personal safety of our sporting public.

You are the last generation that can save this land. Together we will ensure that the human and natural worlds of Florida are saved for future generations.

The State of Florida estimates nearly 4.7 Million acres of natural Habitat will be lost to Roads, Shopping malls, and Housing Subdivisions will be lost in the next 45 years.

Future demands for water will exceed our capacity by 538 Million Gallons per Day.

We are racing against time, as wild lands are lost so are the homes of hundreds of species of plants and animals.

As resources are exceeded and Natural Habitats are Destroyed the amazing array of fish, wildlife, and the habitats in which they live and thrive will disappear forever. That means over 700 terrestrial animals, more that 200 freshwater fish, more than 1,000 marine fish, Mammals, numerous other aquatic and marine vertebrates, and many thousands of terrestrial insects and other invertebrates, will be in danger of EXTINCTION.

These multitudes of species are dependent upon the highly productive natural habitats of Florida, We still have time to make a difference.

Together We Make A Better World For The Future!

Bistro 83

Hosted By: Jim Fink, Sommelier

We Will Be Practicing Social Distancing At The Event

\$40.00
PER PERSON
Tax & Tip Included

Jolie-Laide is a one-man operation based in a Sebastopol winery. The name Jolie-Laide translates loosely to "Pretty-Ugly", a French term of endearment to describe something that is unconventionally beautiful. Scott Schultz is one of the most exciting and talented winemakers in California. His winemaking method is simple; whole cluster, foot crushed, aged in neutral oak and the outcome is magnificent. These wines are limited production & extremely allocated!

Our tasting will include:

- Jolie-Laide Trousseau Noir
- Jolie-Laide North Coast Syrah
- Jolie-Laide Shake Ridge Vineyard GSM
- Jolie-Laide Halcon Vineyard Syrah
- Jolie-Laide Provisor Vineyard Grenache
